June 2009
Volume 1, Issue 2

Inside this issue:

Open House	1
Firewise Presentation	1
Father's Day Events	2

How Fast Can Your House *Run*?

What is Firewise?

*The national Firewise Communities program is a multi-agency effort designed to reach beyond the fire service by involving homeowners and others in the effort to protect people, property, and natural resources from the risk of wildland fire - **before a fire starts.***

www.firewise.org

The program offers a series of practical steps that individuals and communities can take to minimize wildfire risks to people, property and natural resources.

The Firewise approach emphasizes community responsibility for planning in the design of a safe community as well as effective emergency response, and individual responsibility for safer home construction and design, landscaping, and maintenance.

Please join us as Eagle County Eric Lovgren, Wildfire Mitigation Manager discusses how you can make your home and property safe.
